

Dashboard Updates and Corresponding Data Time Periods

The MCDPH school dashboard will be updated every Thursday for the data covering the two-week period ending 12 days earlier. The table below provides September-October 2020 dashboard updates with the corresponding data time period shown on the pop-up report for case rates and percent positivity. The Covid-like illness (CLI) percentage of hospital visits is calculated using countywide surveillance data and is not an area-specific metric. Dates for surveillance data can be found at phcovid.maricopa.gov.
